

# ProSafe SA – COVID-19 Management Plan

WHS Management System

Planning

WHS-PSA-Plan-003

As we are all well aware, the coronavirus outbreak is a constantly evolving situation which we all must take very seriously. This is a challenging environment for many businesses. ProSafe SA looks to stay updated and compliant with Australian Government Department of Health information and instruction.

Minimising disruption to its client's business continuity is a high priority for ProSafe SA and the intention is to remain operational and continue to service its clients as best as practicable throughout this crisis.

## How can we all help to stay safe?

Simple hygiene practices, similar to those used to protect against the flu, can help prevent the spread of COVID-19 and other respiratory infections.

### Recommendations:

- Clean hands regularly with soap and water or alcohol-based hand sanitiser;
- Cover nose and mouth with a tissue or bent elbow when coughing or sneezing, dispose of tissues immediately after use and wash hands or apply alcohol-based (at least 60%) sanitisers;
- Avoid touching face, nose and mouth and shaking hands;
- Avoid close contact with anyone who is obviously unwell;
- Maintain social distancing of at least 1.5 metre (5 feet) distance between yourself and other persons;
- Stay home if unwell.
- Avoid social gatherings where possible;
- Regular sanitation including wiping benches, phones, handles etc with antibacterial wipes.

### Additional ProSafe SA specific

- ProSafe SA will maintain high hygiene standards as above and comply with AGDH recommendations and instruction;
- ProSafe SA will observe and comply with its clients set COVID-19 Management Plans when visiting its sites. Please ensure they are communicated to ProSafe SA prior to site visits;
- ProSafe SA will communicate with its clients on matters relating to COVID-19;
- Domestic travel - if ProSafe SA are required to travel domestically (interstate) it will be for 'Essential Travel' only. Options will be discussed prior to travel and where service can be achieved remotely; this will be a first option. ProSafe SA are aware of and will abide by closed border restrictions;
